hi. 🙌

I'm a designer with **10 years** of experience in product design, I had an opportunity to work with major companies and startups in the early rounds.

introduction.

10 years in design processes. 6 years in product design.

Worked with enterprise companies, studios, and startups.

I improved application metrics, created design systems, accompanied the development of features from the research stage to design review and release to production.

SUPERAPTEKA

focus. 🤔

My core expertise is experience working on mobile apps.

Worked on b2c/b2b and internal products. I consider myself a universal product designer, cause i can both prototyping the feature and develop it.

I'm always working to increase and grow product metrics.
